

Frozen Genetics Sale by NCHCA

March 21, 2026

Online sale through Integrity Livestock

ENTRY FORM DUE: February 21, 2026

The entry fee is \$50 per bull or embryo mating. Semen will be sold in lots of 5 straws and embryos in groups of 3. A consigner may sell multiple lots of the same bull. For example, your entry fee is paid for Bull #1 and you can sell 10 straws as lots 1A (5 straws) and 1B (5 straws) for one entry fee as long as the semen type is the same (conventional vs heifer sexed). The commission is 5% of highest bid (whether sold or buyback).

NCHCA membership is required to consign. Please complete the enclosed form for each bull or embryo entered (make copies if necessary). Forms, entry fees and photos and/or videos should be submitted online at www.HighlandSale.org. Failure to provide full descriptions and photos on time may result in forfeiture of your entry.

2026 SALE AGREEMENT ~ Frozen Genetics Sale by NCHCA ~ March 21, 2026

By participating in this consignment sale, I agree to abide by all rules regarding the sale. I understand that sale proceeds will be disbursed within a 60-day period after the sale.

Cost: I also understand that all consignments will be charged a uniform sales commission of 5% to cover shared expenses from all consignors for advertising, catalogs, sale bidding platform, etc. I agree that commission will be charged on any last bid received on the sale platform and it constitutes the basis for sale expense, which includes floor prices, pass outs, etc., and the seller will be charged 5% commission for the sale or 5% commission for buybacks, based on this number. I understand that any buy back or reserve limit must be submitted to the sale committee chair by February 21, 2026, or I can bid on the animal and buy it back myself as well. I understand that entry fees (\$50 per animal and consignors must be NCHCA members) are not refundable. Any lots withdrawn after March 7, 2026, will be assessed a \$100 cancellation fee, in addition to the entry fee they already paid.

No Published Minimums: The NCHCA Highland Production Sale does not and will not publish reserves or indicate if a lot has met a reserve on the sale. It is the responsibility of the seller to set a reserve limit price as outlined above, but it will not be published. Anyone found to publicly share reserve prices may be banned from participating in future sales.

Ownership: I certify that I am the owner of the consigned semen or embryos, and all statements, pedigrees, photos and video information provided is factual and in accordance with the guidelines of the American Highland Cattle Association.

Permission: I give the Frozen Genetics Sale presented by North Central Highland Cattle Association committee permission to use my information and the images provided to promote my submissions as they see fit.

Quality Requirements: I have read and will adhere to the following requirements: Semen entries must be from AHCA registered bulls and be accompanied by a semen test report or have passed a freeze/thaw test at an accredited semen collection facility. Embryo lots must be frozen grade 1 or grade 2 embryos from AHCA registered parents. The sale committee reserves the right to accept or reject all entries and use its discretion to pick the final lots.

Photos and/or videos are due by February 21, 2026, or you may forfeit your entry with no entry refund.
