Good Morning,

Sure I can send it in an email.

Motility is 57%
Morphology is 0-3.

Hope those make sense.

Let me know if you need something different.

Thanks,

Melisa Grove

Hey,

I remember asking for a straw to be thawed after we first got the semen, but I wasn't sure if the numbers were stored anywhere. Let's try just emailing the numbers and see if that will work for the committee. Thank you!
