LEA Leigh speaks for herself. This five-year-old comes to you with her third calf. Leigh is an amazing mother, and her calf-at-side is easily our friendliest class clown this year. Leigh is easy to handle, loves to be brushed, and is good with both our scales and our squeeze chute. Her calves have averaged 68lbs at birth, and 468lbs adjusted weaning weight.

Here's a sweet young white cow with loads of breed character and a wonderful personality to boot! Imported from Canada, she's a cow that will outcross with just about any bull and will infuse some new bloodlines into your fold! She's an attentive mother with a great udder and exceptional feet-- highly sought-after traits in any brood cow! Davina was exposed to our exciting young bull prospects and has been confirmed pregnant by blood and ultrasound with a due date in June. Potential sires are Windemere Helix ET (Samhach Buidhe of Bairnsley x Yarnelle Farms Betula) and Windemere Hotshot (STR Revolution x DH Ugo Magic). The calf will be DNA typed to identify the sire and registration will be completed by the seller. The pair will be available for pickup from the farm once the calf reaches 30 days of age. With calving being a risky event for the cow and calf, in the event that the seller can not provide Davina and her healthy calf, the buyer will be given a full refund and the transaction considered null and void. Watch windemerehighlands.com and the sale Facebook page for updates on Davina's calving status!

Buy one, get three!!! Here's your chance to add a solid trio to your fold. To start the package off. CBS Octavia, a young cow with countless years of easy-going calving left to benefit your herd. She is a cow that has all the footwork which she generously inherited from her sire Gray Owl's Bearach. A bull that is known for his solid foot, and length of rib whom throws calves with the same advantage points. CBS Octavia comes with Omega at side. A bull calf sired out of SFF Ruthless legend. LOT #5 STR LET THE GAME BEGIN (ET,D)

Registration # 58,316 Sire: Orison of Culfoich (D)
Color: Red Dam: Summit Ranch Whitney (ET,D)
Date of Birth: 04/30/18

Calf: Kells of Highland Spice (D) Red Bull
Registration Pending Sire: Champion of Tatlayoko (D)
Date of Birth: 04/19/21
Consignor: Highland Spice Buffalo, WY
Angelaclare.long@gmail.com 307-620-5828

"Lettie" is a pretty, smaller-framed cow with a classic "Scottish" look. She is the best of two worlds, combining genetics from the famous Summit Ranch Whitney with Orison of Culfoich – imported Scottish semen. Both her sire and dam have produced NWSS champions and are known for their quality. While Lettie is not halter broken, she is gentle by nature and easy to handle. She calves on her own, outside, and is a good mother. Lettie sells with her second calf, a bull calf by Champion of Tatlayoko (D). Champion has been used exclusively by Highland Spice and was selected not only for his outcross value, but also because he has an excellent hind-quarter, balance, and thickness throughout. His first calf crop, born this spring, has been thrifty, small, and smart – this bull calf is no exception. This calf is an excellent bull prospect.

BRED FEMALES

LOT #6 WINDEMERE DARIA (AI,D)

Registration # 54,672
Color: Red
Date of Birth: 04/21/15

Sire: HSC Rebel's Jack (D)
Dam: Cobblestones Zaria (D)

Consignor:	SOK Ranch	Atoka, OK
	thelentc@hotmail.com	303-345-7045

Windemere Daria is a nice medium framed confirmed bred cow with experience calving for those looking to start their Scottish Highland fold. Windemere Daria adds a lot of depth and length to her calves. She is halter trained and was shown in her early career. We used her in our AI and embryo program in 2020. She is confirmed bred through ultrasound on 5/9/21 for a fall 2021 calf that will likely be black, dun, or red. She calves easily and is an excellent mother with a good udder. She is bred to a bull who has produced low birth weight calves in our program for calving ease. Big Ridge Gillie is a quiet-natured, great temperament black bull that is willing to please and is easy to work with. His dam BR Ace of Spades is a very fertile cow. He is a son of the well-known BR Voodoo Magic. We have been pleased at the qualities he has added to our cattle program and are eager to see his second calf crop on the ground this fall. He passes on some great Scottish characteristics as well as structure, depth, boning, and feet to his calves. We are excited to see what this pairing offers with sound genetics on both dam and sire side. You will find notable names such as Sunset Rebel Yell and Limited Edition, LEA, Drover Hill, Ridge Top Haydn's Choice, and Scott of Craycombe in the pedigrees of Windemere Daria and Big Ridge Gillie for the making of a great calf that could be used for show or foundation stock. Don't miss out on adding an experienced brood cow to your program.

Envy the Eyecatcher! This stunning silver beauty is due to calve in June to STR Armageddon, 2020 NWSS Reserve Grand Champion Bull, son of Yarnelle Betula and Rioghail of Balmoral. She hails from the progressive genetic program at Windemere Farm. Envy is a small framed young cow with correct conformation and a nice little udder. She is halter broken, very tame and loves to be brushed but can be disrespectful at times so is not recommended for beginners. Here is a rare chance to pick up that elusive silver colored cow with extra bonus Armageddon calf on board or at side.
Envy is close to calving so we will keep her at our farm until she calves and guarantee a live calf or a mutually agreed adjustment.

LOT #8 HMS LADY GINGER (D)

Registration # 60,696
Color: Red
Date of Birth: 05/31/18

Sire: Autumn Mist Beowulf (ET,D)
Dam: HVM Lady Mallory (D)

Consignor:	Back to the Roots	Watkins, MN
	bruce.schmitz@gmail.com	320-402-4422

Here is a fancy bred heifer with a genetic heritage that is sure to turn some heads. Ginger has great lines, has a very feminine look. HMS Lady Ginger is sired from Autumn Mist Beowulf the direct brother to GH Mr. Dickens who produced many great calves for the Drover hill and Double LL farms. Autumn Mist Beowulf is sired from Scott of Craycombe, he was one of the largest bulls imported to the US, with a long list of progenies to prove. Ginger's Dam side consists of Gilchrist Kodiak a solid Dunn bull that showed first place at the National Western stock show in 1996. Both sire and dam's side have Drover Hills heritage one of the strongest herds in the past producing many solid bulls and cows for the future. Ginger is vet confirmed pregnant to WL Genesis for a fall of 2021 calf. Genesis is a powerhouse silver bull, who's semen sold for $550/straw on the auction in March. Genesis' sire is Angus the 8th imported from Scotland who weighed 2,083 lbs/ at 2 years old. His Dam is Black Watch Portia who was shown extensively, and has a pedigree consisting or Jock of Glengorm, Fours Emma, and Gilchrest Kodiak as well. Don't miss your chance to add two fantastic animals to your fold with one purchase. Ginger will be a great addition to your farm!
Bred to WL Genesis (59,067)

LOT #9 HS HONEYSUCKLE (D)

Registration # 59,531
Color: Red
Date of Birth: 05/01/19

Sire: RiverCity Bulldog 593 (D)
Dam: Trafalgar Diana

Consignor:	Highland Spice	Buffalo, WY
	Angelaclare.long@gmail.com	307-620-5828

This is a gentle, correct, bred heifer that offers the buyer proven maternal genetics from Trafalgar Square Farm and exciting out-cross potential with her 2022 calf. Honeysuckle has a lot of "character" in her appearance, as she injured her horns when she was a calf - thus the unique horn shape. Otherwise, she has been an accident-free heifer who loves to be brushed in the pasture and is started on the halter. She sells confirmed pregnant for an early 2022 calf. Honeysuckle was exposed to Greer of Willow Glen, a black Canadian imported bull, AHCA # 61694 this April, and he is the probable sire to the calf she is carrying. Honeysuckle was confirmed pregnant by a veterinarian on 6/3/21 (estimated 55 days pregnant), which makes her due mid January of 2022. Because she was also exposed to HS Jimbu (a black yearling bull whose AHCA registration is pending) after that date, the buyer will have to ask for DNA testing through AHCA when they register Honeysuckle's calf. This young heifer should make an excellent mother cow that would fit any size operation. You might as well start 2022 off right with a calf from a fancy pedigreed black bull!

SEMEN

LOT #30 WL GENESIS (ET,D) SEMEN

Registration # 59,067
Color: Silver
Date of Birth: 04/08/18

Sire: Angus 8th of Dunvegan (D)
Dam: Black Watch Portia (ET,D)

Consignor: Windland Flats Princeton, MN
info@windlandflats.com 763-260-1001

WL Genesis (ET, D) is a Scottish-style, silver bull, who is the son of Angus the 8th of Dunvegan, who's semen was imported from Scotland. Angus was an extremely long bull who was a great representative of Scottish character. It was said that it looked like he had an extra rib when you would see him in person because of how long he was. Genesis' dam is Black Watch Portia, a fancy silver cow that was shown extensively, who also boasts a strong genetic background. Her sire was the 1996 NWSS National Champion, Gilchrist's Kodiak, and her dam is Four's Emma, who boasts a long line of quality animals. Genesis was 70 lbs. at birth, 725 lbs. at one year old, 1,145 lbs. at two years old and currently weighs 1,560 at 34 months. This is on a grassfed beef producing operation; not a show fed bull. His mature weight will probably be 1,900 – 2,000 lbs. at five years old. His 2020 calf birth weight averages were 68 lbs. for bulls and 65 lbs. for heifers. These weights included first calf heifers and mature cows. His calves have been extremely square with good feet and legs and tons of Scottish character. Extremely docile, he scores a 1 on the docility scale (1 is the top ranking). Silver is one of the hardest AHCA-recognized colors to breed for and finding a bull with these genetics and Scottish heritage in a Silver color is almost impossible to find. WL Genesis' semen sold for a top-selling $550/straw on the March 2021 NCHCA Sale. Learn more about WL Genesis at HighlandGenetics.com

This combination of powerful genetics is what produced Thorbardin's Gandolf, who was a highly influential bull with over 100 progeny registered in the AHCA herd book. Thorbardin's Gandolf was the sire of Thorbardin's Kloe, who was the Reserve Champion Female at the 2002 NWSS in Denver. Thorbardin's Gandolf's females had tremendous maternal index and were extremely eye-appealing. Dirigo Forceful was sired by Ben Eniglair of Scone Palace, a bull with tremendous influence on the USA Highland Cattle herd. Forceful was a brindle bull with a 60 lb. BW and 1500 lb. mature weight. The registered Cape St. Mary fold of WA dates back to the McBarrons in the early 1950s and then the Oles in 1979. The torch has now been passed to the Pridmores of ID. These are the last two embryos of this proven combination to be offered by the HCF. The HCF will pay for DNA parent verification prior to calf registration.
