Sorry for the delay. This is what they gave me.

Skew: 88.90% (it must be above 85% to pass)

Total motile: 2.1, meaning 2.1 million motile cells post thaw in the straw

Post Thaw Motility: 80.77%

Please let me know if you have any questions and need any additional information. Thank you for your business!

Hi, Brandy:

Hope you all had a great Holiday. I just put some WL Genesis Sex-sorted semen in an auction and they asked for the semen test results. Do you have the semen test results when it was created that you can send me, please?

Thanks,
Josh
